I. Introduction

A Few Bad Newbies LLC (AFBN) is an emerging force in the esports industry with online gaming empire committed to making a difference. By holding an **AFBN Revenue Sharing Mutant BOAR NFT**, you can support this movement while earning passive income. Each NFT represents **1 equal share** in AFBN's revenue pool, which helps fund both the organization and its clean energy initiatives.

Through your one-time NFT purchase, you will not only gain financial benefits but also contribute to charitable causes that prioritize sustainability and community well-being. Our vision is to **reward those who support our movement**, starting with our NFT holders.

II. NFT Phases & Evolution

1. Phase One: Pixelated BOARs

- **Initial Design:** Cute pixelated BOAR NFTs.
- **Equal Share:** Each NFT grants its holder one equal share of AFBN's revenue pool.

2. Phase Two: Mutated Pixelated BOARs

- **Design:** Grotesque yet adorable BOARs.
- **Evolution Process:** Purchase and apply "Newbieisms" NFTs to mutate.
- **Resale Value:** Mutations enhance resale value but do not affect revenue shares.

3. Phase Three: 4K Monster BOARs

- **Design:** High-definition, monstrous BOARs.
- **Final Mutation:** Requires further Newbieism NFTs for the last transformation.

Note: Evolving your NFT increases its collectibility and resale value but does not alter the equal revenue share each NFT provides.

III. Revenue Sharing Structure

As an NFT holder, you will receive **equal shares** of AFBN's revenue streams, with profits distributed based on the number of NFTs you own. Revenue is generated from various sources:

- 50% of **YouTube Ad** Monetization
- 50% of **Merchandise** Profits
- 20% of **NFT** Sales
- 20% of **Online Casino** Bet-Losses
- 35% of **MMO Video Game** Revenue
- 10% of **IERC20 Custom Contract** Sales
- 20% of **Online Education** Income
- 10% of **Advertising & Promotions** Profits
- 15% of **CryptoGuard Insurance** Remaining CGI Policy Pool

Regardless of mutation or traits, every NFT holder receives **equal distribution** from this diversified pool of revenue.

1 NFT = 1 equal share.
